

VG Life Sciences, Inc. Announces Filing of Form 10 with the SEC

SANTA BARBARA, Calif., June 23, 2014 (GLOBE NEWSWIRE) -- VG Life Sciences, Inc. (VGLS) is a publically traded biotechnology company focused on developing treatments for patients suffering from autoimmune and infectious diseases.

VG Life Sciences is pleased to announce the filing of Form 10 with the Securities & Exchange Commission on June 19, 2014. Form 10 filings provide comprehensive information about the capital structure, financial condition, history and governance of the company. Once the Form 10 statement is effective VGLS will file annual reports on form 10K, quarterly reports on 10Q and periodic reports on form 8K.

"This is a significant milestone that will provide transparency with the investment community," said John Tynan, President and CEO.

In May the company completed prior year audits. When the Form 10 is effective, the company plans to move from the OTC Pink market to the OTCQB.

"We believe this will provide our shareholders with a more robust trading platform and thus increased liquidity," said Tynan. "We continue to complete key milestones as announced in July related to new capital investment, moving our science forward into pre-clinical safety trials, protecting our intellectual property, completing our audit and now filing the Form 10."

The Company also seeks to clarify a reference to the accumulated deficit and loss carry forward from our May 13, 2013 Letter to Shareholders. VG Life Sciences, Inc.'s loss carry forward is \$44,000,000.
